

Dear Flore Parish Council

Yourselves and Northamptonshire County Council have secured specific Section 106 funding to deliver improvements at a number of locations along High Street, Flore. The proposals include 3 chicanes at different locations along High Street, with the aim of reducing vehicle speeds through the village and encouraging through traffic to utilise the Weedon Bypass. The planned improvements are detailed on the attached drawing S3345/20/01a, 05a and 06a.

We are currently programming these works to commence Spring 2022. If you would like to comment on this scheme or require any further information please contact me by the 25th February 2022 via my email at shoughton@KierWSP.co.uk.

Yours Faithfully,

SJ Houghton

Senior Traffic Engineer,

Northamptonshire Highways

Brixworth Depot, Harborough Road, Northamptonshire, NN6 9BX
