

Flore Climate Group

ESTABLISHMENT

Flore Climate Group was set up in 2023 (through Flore Parish Council) to look at ways the parish can enhance its biodiversity, recycling, decarbonisation, climate resilience, and to look at putting an Emergency Plan for the parish in place. The Group has no delegated powers although a Chairman should be elected

MEMBERSHIP

- Membership consists of a representative from the Parish Council and residents of the parish. All members are voting members of the Group.
- Meetings to be arranged between members and held anywhere.

RESPONSIBILITIES

The tasks identified for this group are set out below.

- To raise awareness in the village of climate change, and the challenges therein.
- To look at putting together an Emergency Plan for Flore Parish with help from the Council
- To identify projects and actions to enhance decarbonisation, recycling, biodiversity and climate resilience within Flore village.
- To delegate and keep an overview of such projects and actions
- To offer support to those already doing such work
- To share in the preparation of any consultation/open days that may be organized for residents of the village
- To keep the Council informed of progress

REPORTING

Chair or designated representative will report to the Parish Council, where necessary.

DISSOLUTION

The terms of reference, list of tasks the group may undertake and membership will be reviewed annually and may be changed by the resolution of the full Parish Council
